## PROFILE

A passionate and dedicated Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning at Neil Gogte Institute of Technology. Skilled in problem-solving, algorithm design, and data-driven decision-making. Proficient in programming languages such as Python, Java, and C with a strong foundation in AI/ML technologies.

## EDUCATION

**Computer Science And Engineering(AIML)** 2022-2026  
Neil Gogte Institute of Technology

**GPA:** 9.07/10.0

**Intermediate** 2020-2022  
Sri Chaitanya Arts and Science Junior College

**GPA:** 97.5/ 100

## PROJECTS

**Sophisticated user interface for data retrieval** APRIL 2024 - JULY 2024

Designed a system that converts English instructions into SQL queries, fetching data and displaying results in tables, bar charts, and pie charts. Utilized Python, NLP, SQL, and visualization libraries like Matplotlib. Enhanced data accessibility for non-technical users through an intuitive, responsive interface, bridging the gap between natural language and database interaction.

**Technologies Used:** React, Node.js, MongoDB, Express.js

**Git repository:** <https://github.com/RithwikReddyMarla/sophisticated-user-interface.git>

## ACHIEVEMENTS

- Earned NPTEL Elite Certificate in Python Programming.
- Secured 100 Days Badge on LeetCode for consistent coding practice.
- Achieved 4 Stars in Problem Solving and Python on HackerRank.
- Completed Google's Python Programming Course on Coursera.

## INTERNSHIPS

Frontend Developer Intern - Motion Cut (AICTE Internship)
